NEWSLETTER JUNE 2024

BEING SMALL IS FUN

Our first week in June, the "Kids day" week, was dedicated to PBL topic "old school games" when children enjoyed various old-fashioned games. Marbles, French skipping, dodge ball, hide & seek, catching, London bridge, hopscotch... It was fun to explore the games of the parents once being small 😊

TEACHERS INQUIRY: What was your favourite game when being small?

Liliia (KOL): When I was a child, I liked to play French skipping.

Petka (SM): Shooting games with my older brother :)

Táňa (HP): Cooking on a meadow using old pot and different varieties of plants and weeds :)

Miška (KOL): I used to play dodge ball every evening until we could see only lights from streetlamps.

Radka (MD): Floor is lava at my grandmother's house with my cousins was the best. I never won 😊.

Erika (HP): My favourite game was playing with my soft toys, I was their teacher and they were my students 😊

Rashee (SM): Cricket match with neighborhood team. 😊

Olga (SM): Hopscotch and catching games

Rebeca (KOL): I loved to play hide and seek and jumping over elastics.

Emily (HP): Honestly I just loved to play the bank and making fake money

Leuška (SM): I loved to play Monopoly with my parents 😊

Ninka (MD): Whenever we played outside, me and my friends used to pretend we were mermaids...

DIGITAL WORLD

Our little tech-savvy kids dove into the digital world, just like little YouTubers! They explored digital gadgets, cameras, computers and created their own mini-videos or snapped pictures.

FATHERS DAY

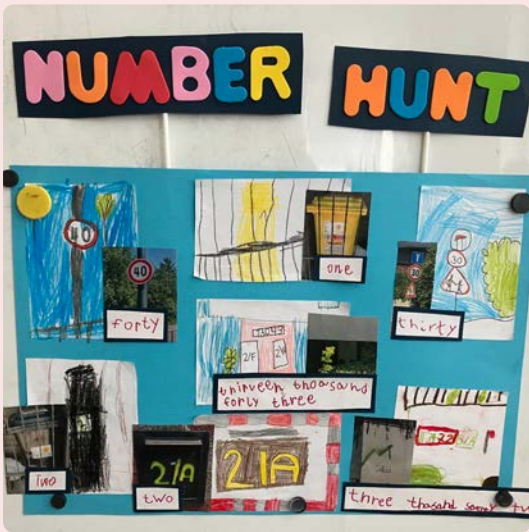

This year, we again had a chance to celebrate Father's Day in June. And so, we became cowboys, ancient heroes or famous men in history and spent a great time in different games, contests and competitions. After all, both daddies and children got a well-deserved reward.

MATHS AROUND US

A week-long celebration of maths! Our little maths detectives went on a scavenger hunt in the neighbourhoods to find mathematical concepts. Using our imagination, we found unique examples of maths exhibited in both nature and man-made world. In a nutshell, we had math-tastic fun!

WE SPY: Why do we need maths?

NURSERY

Bertik (HP Bunnies): Because we need.

Ela S (Meerkats MD): When we are counting we need the math because when we don't have the math we don't know how to count.

WooJu (Turtles KOL): My mummy is counting to 10.

Janko (HP Seahorses): I am not Janko, I am Spiderman and I do not need Math.

RECEPTION

Katja (Giraffes KOL): Because we need to work when we are grown-ups.

Hugo (Squirrels SM): Because then we cannot drive.

Jasminka (Toucans MD): For thinking about something. Numbers, shapes because when we are small I think we didn't know what shape is that. When someone needs to tell you that, you need to know it.

Marínka (Llamas HP): We need to know numbers.

YEAR 1

Adam (Koalas KOL): Because if you don't know Maths, you do not know how much is 1+1.

Marínka (Sharks SM): Because then we won't know how to count in the shop.

Janík (Koalas KOL): Because it's nice, and we can count like 10+10 is 20, and 20+20 is 40, and 2+2 is 4.

Sophie (Penguins HP): It helps us in everyday life.

Sebi N. (Alpacas MD): So we can know what is dividing, plus or minus, equals or how are the numbers made. And so our brain will make more energy and your brain will exercise, because it can make you smart and it makes you do smart choices.

Y1 GRADUATES

For our Y1 students, June became the time to say goodbye to their kindergarten days. As every year, they did it in a big style at their Graduation ceremony! And we just wish them to find joy in new friendships, discover their unique talents, and embrace every challenge with confidence!

Y1 SUMMER CAMP

For preschoolers, the highlight of June was, for sure, the summer camp! It was not only a great adventure but also symbolic initiation into the role of schooler. They all beat their fears and became little independent persons ready for school.

LATEST NEWS

With tiny hands clapping and eyes sparkling, our children embarked on a musical adventure in CIS.

On 21st June, our Y1 preschoolers got a chance to meet the teachers and visit the school for the first time, and on their own.

WHAT'S NEW IN OUR SCHOOL

June in Cambridge was full of exciting trips, events and ceremonies. For more info check www.cambridgeschool.eu
