BACK TO SCHOOL

Drumroll, please ... we kicked off September in new academic year 2024/2025 with a perfect kindergarten scavenger hunt! Our kids zoomed around finding classes, crayons, all kind of treasures in the office and even sneaky stuffed animals hiding in the silliest spots. Way to go, super detectives. Get ready, because this school year is going to be filled with even more surprises!

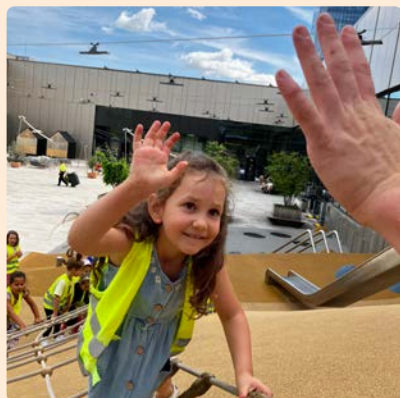

ME & MY CLASS

The kindergarten class picnic was a perfect opportunity for the children to form new bonds, break the ice, and set the tone for a positive, collaborative year ahead. We had yummy snacks and enjoyed time spent together.

ME & MY FAMILY

In September, we also had our first family project. Our classrooms were filled with beautiful posters showing smiling family photos, creative drawings, and colourful stickers. This activity allowed the children to develop both their presentation and listening skills. A big thank you goes to all the parents who contributed to this project – we can't wait for the next one!

ME & MY CITY

During the last week of September, Reception and Year 1 classes headed out for an exciting city tour, exploring famous landmarks along the cobblestone streets like the Blue Church, Bratislava Castle, Michael's Tower, and the Danube River. They learned about the city's rich history while taking in the sights and sounds of Bratislava. Meanwhile, the small ones from Nursery classes were busy creating their own cardboard replica of Bratislava, using their boundless creativity to build miniature versions of the city's iconic spots right in the classroom! Bratislava, you have officially stolen our hearts!

WHAT'S NEW IN KINDERGARTEN

This academic year, it's been the **20th YEAR** when our kindergarten firstly opened its gates for our little students and their parents. We started the campus in Stare mesto with six children and since then we share our passion for education. We are proud that nowadays we run four kindergarten campuses in Bratislava and Cambridge international school.

We enjoyed our annual staff **TRAINING** and teambuilding in Modra.

As we approach flu season, we want to provide our students and their families with immediate access to care when needed.

Pastel Care is a multilingual pediatric clinic offering the highest standard and most exclusive pediatric care in Bratislava. The clinic's pediatricians, nurses and staff are highly experienced, friendly, thoughtful and caring, fluent in Slovakian, English, French and Hungarian. The clinic is conveniently located at the heart of Bratislava. Its atmosphere was designed by one of Slovakia's best-known architects to create a stress-free and playful environment that is soothing and calming for parents and their children. The clinic's website was also designed to allow families easily book their appointments in seconds online. With longer appointment times, the clinic's doctors can carefully and patiently address each medical case, while families avoid waiting in the clinic and reduce their risk of exposure to other illnesses.

Families have the option of having Pastel Care as their official pediatric clinic through annual memberships or simply book an evening clinic as a member or non-member through Pastel Care's website to see a doctor right away for an urgent matter.

As part of our collaboration, Pastel Care has agreed to offer all Funiversity families with a special **10% discount** on all their membership packages. Simply use the code **FUN10** when registering on their website.
